Genuine Patriotism.

One of the most distinguished of the old California residents, a man who had borne a leading part in the politics of this region, while it was in Mexican hands, and who, from the first, had resolutely opposed its annexation to any other country than the United States, was requested by his friends to permit his name to be brought forward as a candidate for a seat in the House of Representatives at Washington. His answer was equally modest, wise and noble. He said "I am not the man whom California, in her present crisis, requires. I have, I know, many friends here. I am not without some influence in California. I know her population and her wants. But I have no influence at Washington. There, in the House of Representatives, I should have everything to learn. I should have to begin a new political life, on a new scene. Months, perhaps years, would elapse, before I could make myself duly felt in the House of Representatives, and meantime the urgent interests of California would suffer. Send men to Congress now who can work well and work fast, in the accomplishment of your great objects. Send men who have already accumulated a political capital there, by

years of political service, and who can use that political capital in your behalf. You will need there, during the approaching session, all the influence which the most thorough knowledge of Congressional business and of public men, will enable your Senators and Representatives to command. Hereafter, in the history of California, a time may come for men like myself. It has not yet come. Other men are needed, and I most respectfully decline the great honor you have tendered me."

These were the words of a patriotic and disinterested wisdom. We put it to the sober and candid judgment of Californians, do they not rise far above that sentiment, however respectable, in its proper place and season, which would make the selection of the Representatives of California, at this juncture, turn not upon personal qualifications to render the State service, but upon the old and remote issues of party politics, which have no possible application to the new state of things in the midst of which we dwell? Let the candor of every disinterested man answer the question at the polls.

General P. A. Morse.

In this gentleman, whose name appears upon the "People's Ticket" as a candidate for Congress, Californians have a man presented to their suffrages who, if elected, is eminently qualified to render them good service.

Gen. Morse is a lawyer by profession; he has already attained, in his native State, Louisiana, an elevated and commanding position. In the department of the Civil Law, especially, we understand that he has left behind him there few, if any, superiors. He has been, in the course of his professional practice, extensively versed in questions relating to the Laws of the Public Domain, and the People of California can send no man, to represent them in Congress, more competent or more disposed, by the soundness and liberality of his views, to watch over and guard the interests and the rights of our whole population, in this most important respect. In Gen. Morse the hardy and enterprising emigrant will find a fast and zealous friend.

Gen. Morse's first public appearance before the citizens of California was made in the delivery, by him, at the request of the Common Council of our city, of the eloquent eulogium upon the character and services of the late lamented President Polk, which has already appeared in our columns. In this able effort, Gen. Morse appeared in the same political character which he has invariably sustained—that of a firm and liberal Democrat. In the Legislature of Louisiana, in 1839, when the Bank Paper question was the leading political question before the People of that State, General

Morse stood firm, at the head of a Democratic minority of seven, in that body, in sustaining the veto of the Democratic Governor, which had been exercised in relation to a Bill permitting the non-specific paying Banks to go on with their issues, instead of paying their debts and going into liquidation, as the Democratic Party desired. Having thus taken the Democratic ground, on this subject, in the Legislature, Gen. Morse, when he returned home to his district, put forth a paper, in which he reviewed the whole banking policy of the States, completely vindicated the wisdom of the Governor's veto, and established the democratic view of the subject upon impregnable foundations. This paper was published in the Washington Globe, and other democratic journals throughout the Union, and drew from the leading organ of the other side, in Louisiana, the admission that if the Governor had himself only rendered as sound reasons for his veto as Gen. Morse had presented for him, the opponents of the veto would have found a reply to be no easy task.

Such has been Gen. Morse's previous political position and career. In now taking his stand, as he has done, upon the California Platform, he has sacrificed none of his old principles. He is still a Democrat, but a Democrat mindful, at once, of the new and special interests of the community in which he is placed, and of the necessity of laboring to maintain them, without regard to party issues. Such a man deserves, and, we trust, will receive the cordial support of fair and liberal men of all parties.

Capt. John A. Sutter.

A friend has sent us the following brief and gracefully written account of the eventful life of this distinguished gentleman, who has so memorably identified his own history and fortunes with those of California. The admirers of Capt. Sutter's career—and their name is legion—will read it with deep interest:

"If the party who have enlisted under the banner of the 'Union of Californians for the sake of California' were required to give any additional proof of their deep devotion to the interests of this glorious territory, it would be more than supplied by their nomination of the noble patriot and brave soldier, Capt. JOHN A. SUTTER, to the distinguished post of first Governor for the new-born State of California, whose welfare and advancement they have pledged themselves, by every honorable means, to support and to sustain.

The career of Capt. Sutter is a romance, in comparison with which many tales of the crusades fade into insignificance, and his fame will descend into all time, in honorable association with those hardy pioneers of the American continent who have won for themselves imperishable renown, by their adventurous daring,

their generous sacrifice of self, and abandonment of all the enjoyments, refinements and endearments of civilization.

Though a Swiss by birth, and bred to arms, he retreated from the despotism of European government to the U. States, and sought a home and a refuge in the wilds of Oregon.

His resolute spirit tempted him thence to California, where he established himself, unprotected and unsupported, in the Valley of the Sacramento, in the midst of savages, where not a white man was to be found. He encountered repeated failures in his attempts to ascend the Sacramento river, before he succeeded in attaining the site of his present location, now known as "SUTTER'S FORT," which he caused to be erected after the most approved frontier mode of construction, and commenced the difficult task of reducing the unfriendly tribes to submission.

His prowess at length attracted the attention of the Mexican government, who, becoming jealous, as well as fearful, of his power, sought to buy him off, by an offer of the beautiful mission of San Jose, and a pledge of a large sum of money. To these overtures he refused to accede, looking forward, with a prophetic spirit and a firm faith, to the day that must inevitably come, when the whole territory would fall into the hands of his adopted country.

The consummation of his warm wishes came sooner than he had dared to hope or expect, and, as though Providence had designed that the hardy pioneer, who entered the field as the first bold ministrant in the cause of enlightenment to the ignorant savage, should conduce to the fulfillment of all that he had labored to achieve, we find that, after the country had been ceded to our arms, the opening of a race for putting into operation a saw mill, which his enterprize projected and his humble means were to pay for, revealed the existence of that incredible treasure which has raised this land to its present position, and made it the envy and wonder of the world.

Fellow citizens of California, can you find it in your generous natures to record your vote against the candidate whose name we present for your suffrage and support? We think not."

Col. K. T. P. Allen,

The efficient special mail agent for California and Oregon, has just returned from an official tour through our territory, which he has undertaken with a view of increasing the facilities for the transportation and distribution of the mails. We understand that it is Col. Allen's intention, so soon as his official engagements will permit, to repair to Washington in order personally to urge upon the Government, as he has already done in repeated despatches, the necessity of making more effectual arrangements than now exist for the transmission of the mail across the Isthmus.

The Constitution of California, and the Treaty of Peace, Friendship, Limits and Settlement between the United States and the Mexican Republic, may be had on application at the Prefect's Office.

Late from China.

H. N. M. ship Koerrier, Captain Houckgeeret, 64 days from Hong Kong, arrived at Saucelita on Sunday. Before anchoring the Koerrier saluted Commodore Jones' flag with 13 guns, which was returned by the Savannah, gun for gun, with the Dutch flag at the fore. The Koerrier brings files of the *China Mail* up to the 1st of September, which contain full accounts of the assassination of Senhor de Amaral, the Governor of Macao. We make from the *Mail* of August 30th the following extracts:

Senhor de Amaral, the Governor of Macao, has been assassinated! On the evening of the 22d he was taking his usual ride, accompanied by his aid-de-camp, and at sunset had gone as far as the Barrier, where he would have turned, but that he had brought a quarter dollar to give to an infirm old Chinawoman who lived within the gate, and was a pensioner on his bounty. He then proceeded homewards at a slow pace, conversing with his aid-de-camp, and when they had gone about three hundred yards, said "Let us trot." The words were scarcely spoken, when a Chinese on his right struck him in the face with the bough of a tree fastened to the end of a long bamboo. The Governor attempted to turn upon his assailant, exclaiming, "You dog!" but a dash was made at him by six other Chinese, and his horse shied to the left where the ground was broken, with an acclivity of between two or three feet, which the pony cleared. From the appearance of the place, but much more from our knowledge of His Excellency's character, it is probable that as soon as he could pull up on clear ground, his first and fatal impulse was to face his pursuers; who however rushed upon him with drawn swords, with which the foremost made cuts at his one arm, for by disabling it he would be at their mercy. He, however, though he had lost a stirrup and was but an indifferent horseman, kept his seat some time, for the aid-de-camp observed His Excellency falling after he himself had been brought to the ground. Having thus secured their victim, they cut his head off, which, from the appearance of the body, must have been effected by repeated strokes with their blunt swords. The wounds on the body were not mortal. Having likewise chopped off his hand, the murderers escaped through the Barrier, and within a few minutes afterwards a party of friends rode up to the spot.

The Chinese authorities at Canton have been adopting energetic measures to put a stop to smuggling, which it is well known is not confined to one class of foreigners or description of goods, and embraces alike exports and imports. The system has been in a great measure winked at by the inferior mandarins, with whom the foreign merchants made their arrangements; but through some misunderstanding, the subject has now been brought officially before the higher authorities, who immediately proceeded to make seizures of contraband Ginseng, the property of Americans; but to shew equal justice to other offenders, a formal application has since been made to the British Vice-Consul by the Chinese, to seize a schooner with smuggled silks, teas, and other goods belonging to a British subject. This the Consul was bound to do under the treaty, and accordingly the schooner was seized by the boats of the *Phlegethon*.

These proceedings have excited no little interest at Canton; but hitherto the Chinese do not seem to have gone beyond the treaties and law of nations. Still it is doubtful if they will proceed to extremities, and confiscate all smuggled goods, since their own officers are as much implicated as the foreigners. At present we merely advert to a subject which may possibly ere long occupy more of our attention.

LET THE BALL ROLL!

The candidates of the Regularly Nominated Democratic Ticket for the State Legislature, on their part, accept the proposition to meet their opponents, and discuss dispassionately and temperately, their claims for the suffrage and support of their fellow citizens.

We recommend the following remonstrance to the favorable consideration of our City Fathers. They certainly have not the power to make use of the Square for buildings, and if they had, it would be inexpedient for them to do so. We trust they will pause, and consider well, before they pass a resolution which must prove unpopular to the mass of our citizens:

To the Ayuntamiento (Town Council) of San Francisco:

We, the undersigned, citizens of the Town of San Francisco, learning that your honorable body contemplate the erection of a building, of buildings, upon the public plaza, called Portsmouth Square, would respectfully protest against any such measure.

We conceive that the Square, having been once dedicated to the public use, there is no power competent to revoke the gift.

The Plaza is the only ornament of which the town can boast, and we trust your honorable body will not, by erecting any building upon it, disfigure or destroy its beauty. We would, moreover, petition your honorable body that the School House and Custom House, which now encroach upon the Public Square, be removed at the earliest possible time; and your petitioners will ever pray, &c.

G. H. Beach,	Mellus, Howard & Co.,

And numerous other citizens.

We understand that the Hon. Thomas Butler King, who has been for some days at Sonoma, is to be in town again in the course of the present week. We are happy to hear that he is fast recovering his usual strength, which has been prostrated by his recent severe illness. Mr. King's arrival among us again will be warmly greeted by his numerous friends.

QUICK PASSAGE.—The steamer Senator performed the passage from Sacramento City to San Francisco, yesterday, the 7th inst., in 9 hours 50 min.—including a delay, at Benicia, of 25 minutes. She left Sacramento City at 8 o'clock, A. M., and arrived here at 5 o'clock 50 min. Running time, 9 hours 25 minutes.

Agreeable to a call published in the Pacific News of Saturday, the 3d instant, the draymen and handcartmen of San Francisco, assembled in front of the Parker House, and were called to order by Mr. Thos. Edwards; whereupon J. Judson Ames was chosen Chairman, and J. H. Kent, Secretary.

The Chairman then stated briefly the object of the meeting, when on motion of Nahum Brown a committee of ten were chosen to draw up a tariff of prices to be reported to our next meeting.

The following gentlemen were chosen to serve on that committee:

Wm. Sedley,	John Murphy,
Mr. Elliot,	Alex. Roberts,
Patrick Kirby,	Benj. Reynolds,
Thos. Edwards,	Thos. Joyce,
John Piercy,	C. Wentz.

There appearing no other business that could come legitimately before the meeting at this time, on motion of R. B. Turner, it was voted to adjourn to WEDNESDAY evening, 7th inst., at the same time and place to hear the report of committee.

J. H. KENT, Sec'y.
J. JUDSON AMES, Chairman.

San Francisco, 5th Nov. 1849.
MR. EDITOR:

A gentleman of this place has taken the trouble to compute from the record harbor masters of the Port, the number of emigrants arrived at this place by sea during the months of August and September, amounting to 10,537. The months of June, July, and October have no doubt given us an equal increase of population by this source. Add the overland emigration, not less than thirty thousand, and we have already 50,000 hardy and enterprising citizens given to California within a period of four months. Who can tell what California will present in growth and importance within the next twelve months, now that the substantial evidences of the productiveness of her mines has gone abroad to the various nations of the globe? FELIX.

PROCLAMATION

To the People of the District of San Francisco:

The delegates of the people of California having formed a constitution, the same is now submitted to the people for their ratification. In accordance with the directions contained in said constitution, notice is hereby given that an election will be held in the district of San Francisco on Tuesday, the 13th day of November, 1849, at which "every white male citizen of the United States, a resident of California on the day of election, and every white male citizen of Mexico, who shall have elected to become a citizen of the United States under the treaty of peace, exchanged and ratified at Queretaro on the 30th day of May, 1848, of the age of twenty one years, will be entitled to vote.

At this election the sense of the people upon the adoption of the aforesaid constitution will be taken; each voter will express his opinion thereon by depositing in the ballot box a ticket, whereupon shall be written or printed "For the Constitution," or "Against the Constitution."

The following officers will also be voted for:—

Governor.
Lieutenant Governor.
Two Members of Congress.
Two Senators, for State Legislature.
Five Members of Assembly, do
The election will be held at the new building on the S. W. corner of Clay and Dupont streets, in the town of San Francisco. Two polls will be opened to afford an opportunity for every qualified voter to exercise his suffrage. All voters living within any part of the town of San Francisco, lying north of Clay street, or of the vicinity in the direction of, and including the Presidio, will deposit the ballots at the poll in the north end of the building, designated "District No. 1," and those residing in any other part of the town or district not included in the limits before specified, will deposit their ballots at the poll in the south end of the building designated "District No. 2."

The polls will be opened at 7 o'clock, A. M. and continue open without intermission until sunset, when they will be finally closed and the votes canvassed.

HORACE HAWES,
Prefect of the District of San Francisco.
(Official.) HENRY REED, Secretary.

THE HOSPITAL OF SAN FRANCISCO.
W. H. STIVERS, M. D. Resident
J. F. THORP, M. D. Physicians.
Main entrance on the east or lower side of Stockton street, between Clay and Sacramento streets, south-west of and near the Post Office.
THIS establishment is composed of an extensive range of buildings recently erected, and formerly, in part, occupied for a Hospital by our fellow-citizen Dr. Melhado. Its arrangements are, in all respects, most commodious; on a scale, indeed, suited to the various and rapidly increasing wants of both citizens and strangers. The position is one of the best that could be chosen—elevated, healthy, and easy of access, with excellent water, and commanding a fine view of the bay. There is also attached to the premises an elegantly fitted up Bathing House, where cold, warm, hot and medicated baths may be had, at all hours. The Baths for the use of the public are entirely SEPARATE and DISTINCT from those devoted to patients.
The Hospital of San Francisco is the FIRST, and, in fact, the ONLY Institution established on the Pacific coast, on a broad, liberal and sure foundation. It is a refuge for the sick—a home for the invalid, where comfortable quarters, good nursing, watchful medical treatment and suitable diet will do all that human effort can do to alleviate suffering and restore to health.
The Terms are placed on the most moderate basis, being in truth, about one-third to one-sixth less than the expenses necessarily encountered by the sick, under any other arrangement.
TERMS.
1st class, one in a single room, neatly furnished, \$16.00 per day.
2d class, two in a room, neatly furnished, each, \$10.00 per day.
3d class, in wards, neatly furnished, each \$5.00 per day.
In all surgical cases, and cases of Insanity, there will be an extra charge.

ALVISO.—The town of Alviso, situated at the head of the bay of San Francisco, will shortly be offered to the public in lots suitable for building purposes. The locality of this place possesses advantages of a nature so positive and apparent that a brief description must satisfy every one of the certainty of its becoming, ere long, a town of the highest importance. At the head of the great bay of San Francisco, on the Guadalupe river—a stream running directly through the centre of the town, and navigable at all seasons of the year to vessels drawing 12 feet of water—the depot and business headquarters of the two finest valleys in California—the Santa Clara and Pueblo—where everything required for their already numerous population, must be received; convenient of access to the gold mines, and directly on the route between them and San Francisco; with a climate unequalled even in Upper California; with pure water; free from inundations at all seasons; leagues of woodland within a convenient distance, with mills which even now furnish lumber at one-third the price in San Francisco. The town of Alviso must grow into importance. The wants of the extensive country around, constantly increasing, require a commercial town at this point—the only one where such a town can be located.

The place will be immediately surveyed and laid out into lots of convenient size, by C. S. Lyman, Esq., surveyor, and maps will be published for the inspection of the public as soon as practicable. Contracts have been entered into for the erection of warehouses and buildings, and a substantial bridge is now being erected, connecting the two portions of the town. The title is perfect and indisputable, having been derived directly from the Mexican government, to persons who have since resided on the premises for nearly twelve years. Persons desiring to purchase will have preference in choice of lots in the order of the reception of their names by the undersigned. Address, post paid, J. D. HOPPE.

LOTS FOR SALE. In the city of south San Francisco, offering the greatest inducements to persons recently arrived, who are desirous of locating themselves with superior advantages. The city of south San Francisco is situated two miles south of the city of San Francisco, immediately on the bay, having every advantage for the shipping, and is supplied with wholesome water in great abundance. A stream of sufficient quantity to supply both cities and all the shipping that ever may lay in their harbors, forms the northern boundary of this place—is quite accessible and is abounding connected into reservoirs for that purpose. The harbor is more securely protected from the winds than the harbor of San Francisco, and ships of the heaviest burthen may at all times of the tide lay within a boat's length of the land, at many points, and quite close along the whole front of the city, affording the best facilities to discharge cargo. The soil is free of dust, and is of a rich clay nature. There are extensive stone quarries, and springs of pure running water are in many places. The surrounding scenery is highly picturesque, and a more pleasant place for residences, or a more convenient place for business is not to be found on the bay. The only good road from the city of San Francisco to the Pueblo de San Jose passes through south San Francisco, crossing the mouth of Mission creek and the mouth of the stream of fresh water already alluded to. On this road you travel along a beautiful valley of firm grass land to the Puente-Arco, a distance of less than two miles. Persons desirous of purchasing lots, which will wholly equal in value those of the City of San Francisco and provide for themselves residences on moderate and easy terms can do so by calling at the office of the undersigned in Clay st., where full particulars will be given them. **HUNTER & BROTHER,**
Agent for the Proprietors.

A good house with everything necessary for the accommodation of visitors is now established at south San Francisco. xxiv tf

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby certify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, San Francisco. **HIRAM GRIMES.**

NOTICE TO SQUATTERS.—The undersigned begs leave to caution the public in general against squatting upon his farms or ranches, as follows: One farm on the river Sacramento, extending to the mouth of Feather river and American Fork, known as *Rancho del Paso*.

Also, two ranches on the San Joaquin river; one of 2 leagues, granted to Don Hernandez by Gov. Micheltoreno, and adjoining the same; being one undivided half of 8 leagues granted by Gov. Micheltoreno to Balentine Heguira, near the Pueblo pass.

All persons are hereby notified to abstain from taking possession of any portion thereof, at the peril of being proceeded against according to law. **HIRAM GRIMES.** iv tf

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared, by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold, and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time. The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the months of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and San Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, San Francisco, and at the city of New York.

J. D. STEVENSON,
W. C. PARKER,
G. McDUGALL,
Proprietors.

TOWN OF SUTTER.

(LATE SUTTERVILLE.) This town has just been re-surveyed and laid out by L. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougall & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarkment point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been executed and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and San Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only five hundred yards above Sutter's Embarkment, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to **HIRAM GRIMES,** or **J. HALLS.** iv tf

LANDS ON SALE.—24 lots in Pueblo de San Jose, 20 lots in Sonoma. Several allotments in Suisun. 1,000 lots in the town of Boston, opposite Sacramento City.

3 farms on the San Joaquin. 12 do in Rancho del Paso. 12 lots in San Francisco. 13 do on lease for a term of years. For terms apply to **HIRAM GRIMES.** iv tf
